

Supplement Document

I. RESULT OF REST SUBJECT

Fig. 1 to 6 show the imaging results of sub 02 - 07 under 7 ESI algorithms (ADMM-ESInet, SISSY, wMNE, LORETA, SBL, DST-CedNet, DeepSIF), respectively.

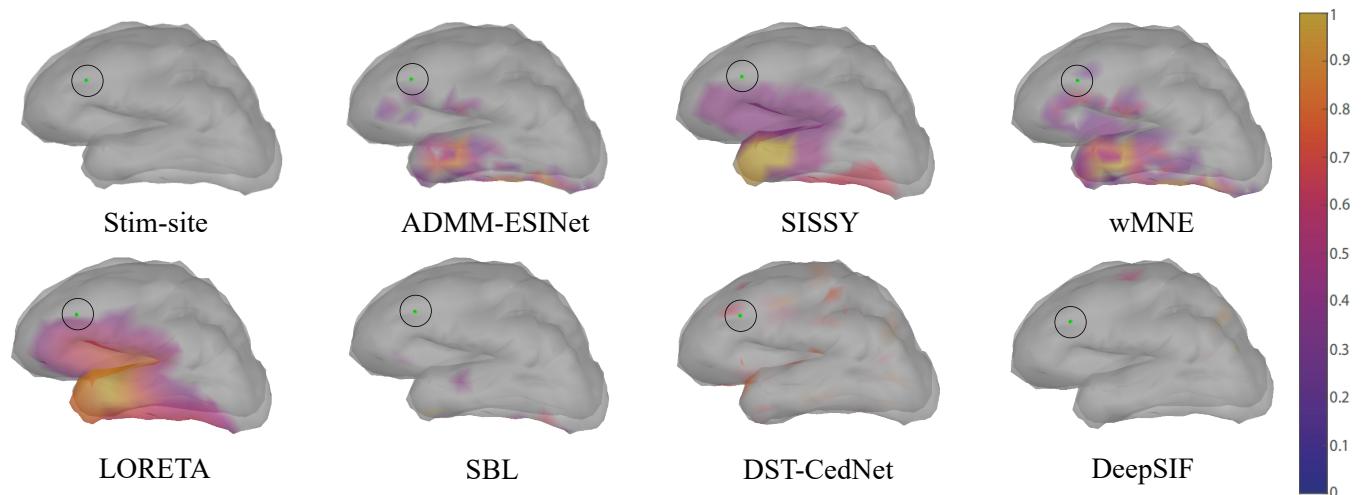

Fig. 1. Estimated sources of compared algorithms for Sub-02. The green point represents the site of the sEEG simulation.

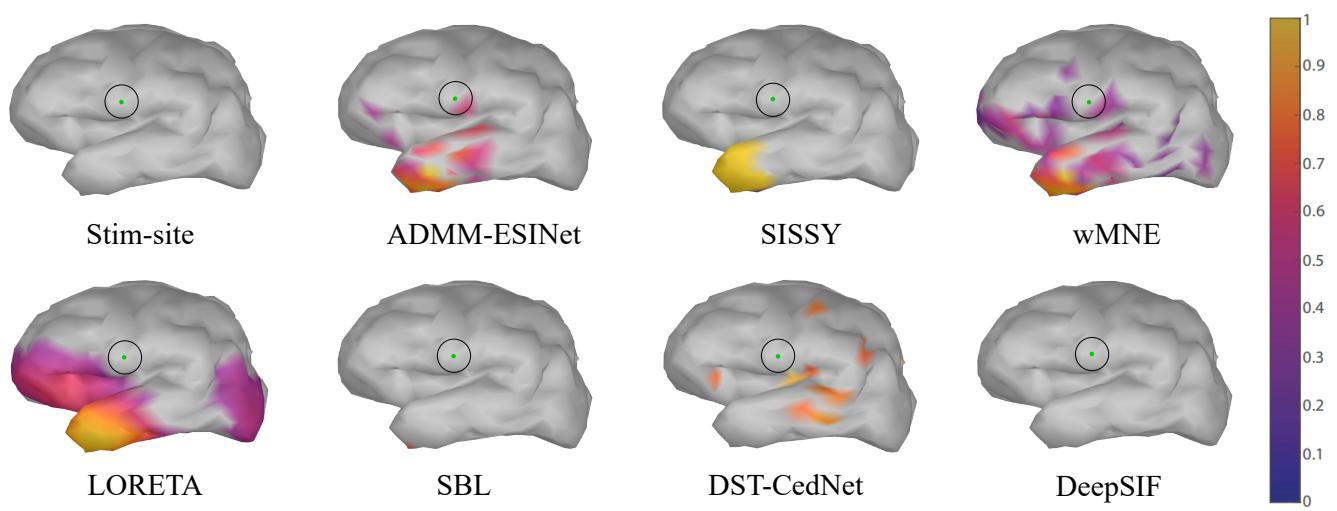

Fig. 2. Estimated sources of compared algorithms for Sub-03. The green point represents the site of the sEEG simulation.

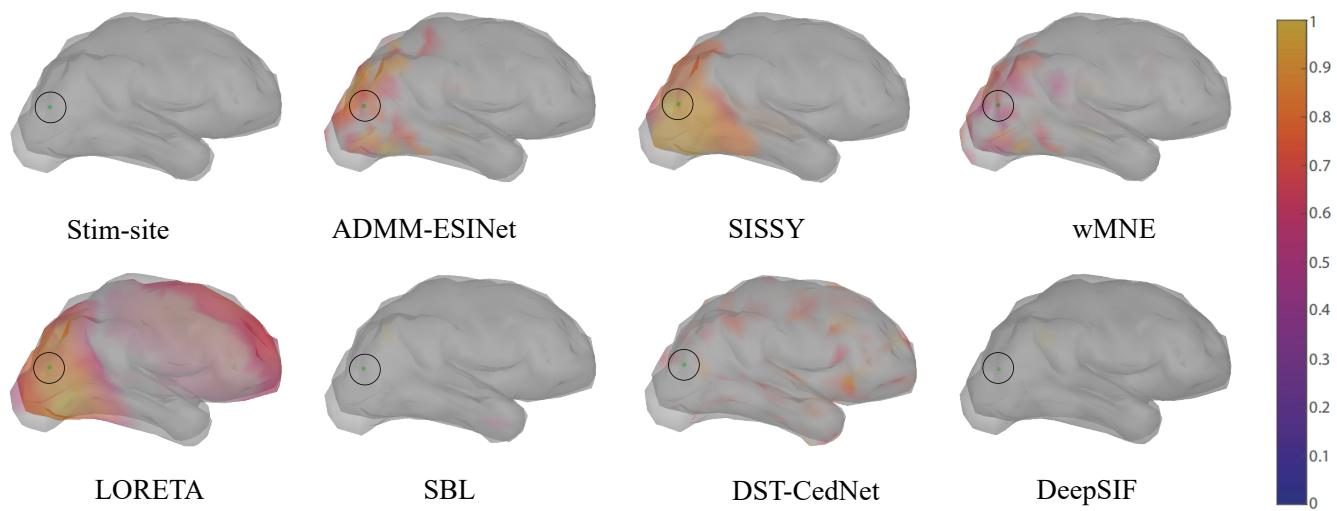

Fig. 3. Estimated sources of compared algorithms for Sub-04. The green point represents the site of the sEEG simulation.

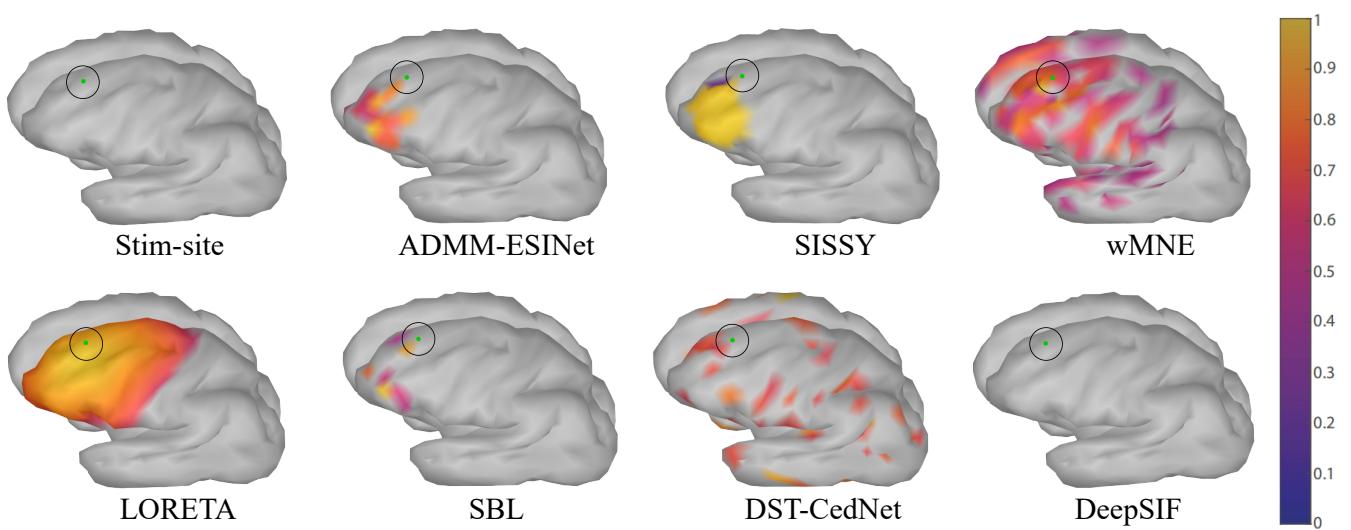

Fig. 4. Estimated sources of compared algorithms for Sub-05. The green point represents the site of the sEEG simulation.

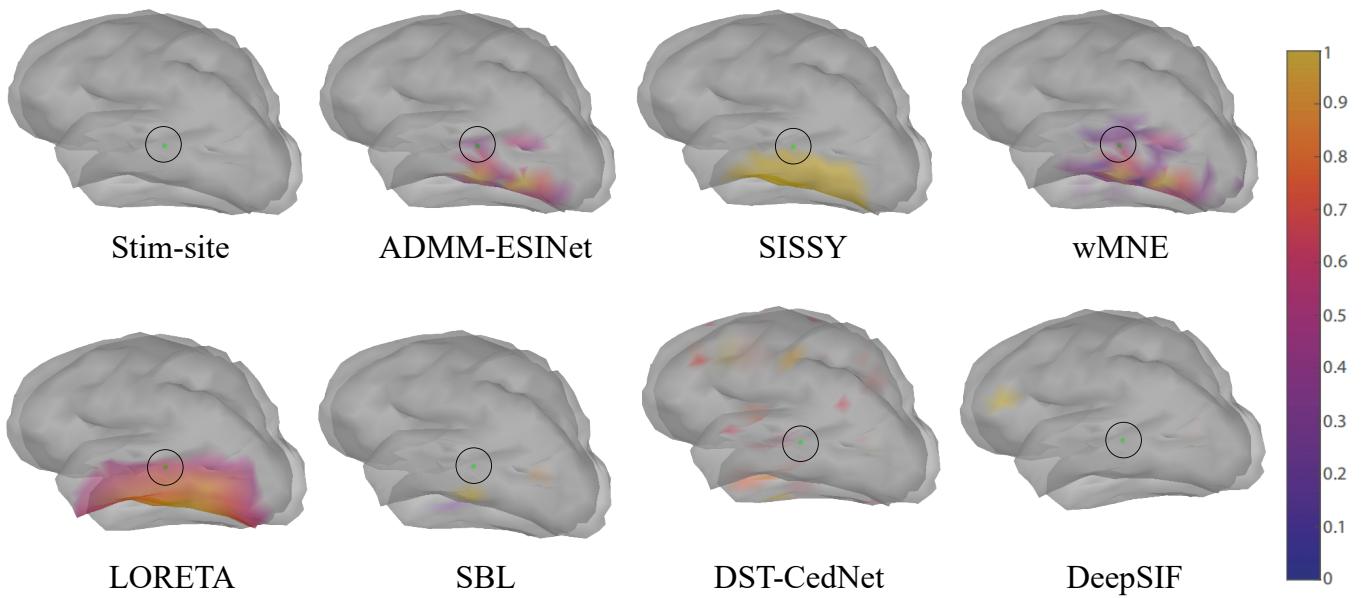

Fig. 5. Estimated sources of compared algorithms for Sub-06. The green point represents the site of the sEEG simulation.

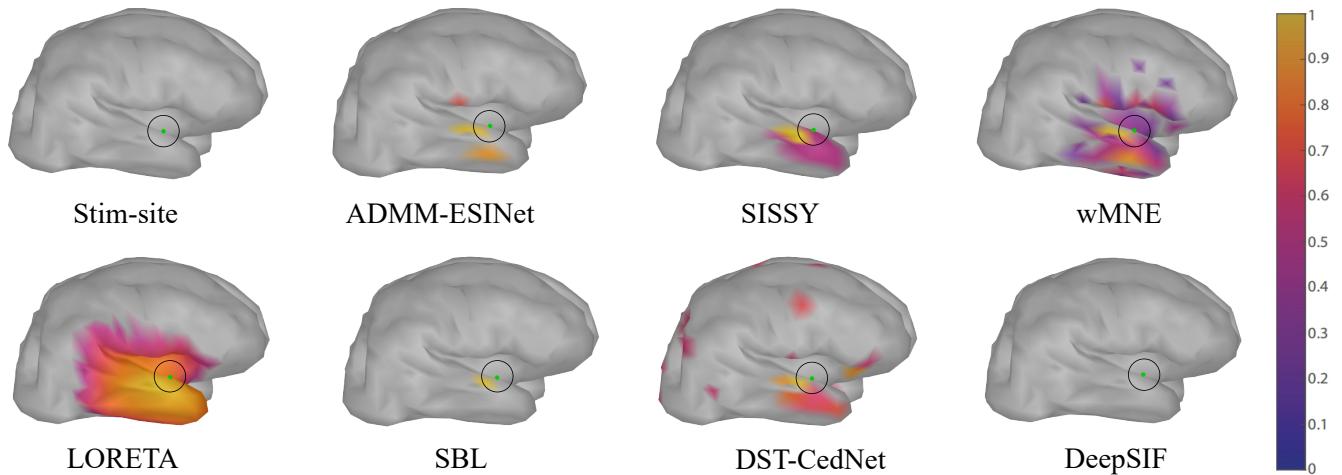

Fig. 6. Estimated sources of compared algorithms for Sub-07. The green point represents the site of the sEEG simulation.
